

Converting your ideas into viable projects that are resourced and ready to go!

Total Crowd Solutions (TCS) is a planning and management tool designed to help small towns, nonprofits and businesses secure necessary human and financial resources through social media and crowdsourcing to enable a successful project launch.

The main advantage of Total Crowd Solutions is we help plan and secure the resources a project needs to be successful. Our competitors simply manage the resources a project already has.

Whether you are a relatively new project manager or one with experience, the **Total Crowd Solutions Road Map** is an easy-to-use guide from start to finish or as a reference when you encounter a road block. It covers:

Frame the Project

- Determine objectives
- Inventory and evaluate resources
- Identify issues
- Network using social media and productivity tools

Assess Alternatives

- Formulate and evaluate alternatives
- Finalize project steps
- Secure resources
- Coordinate activities using social media and team productivity tools

Implement and Evaluate

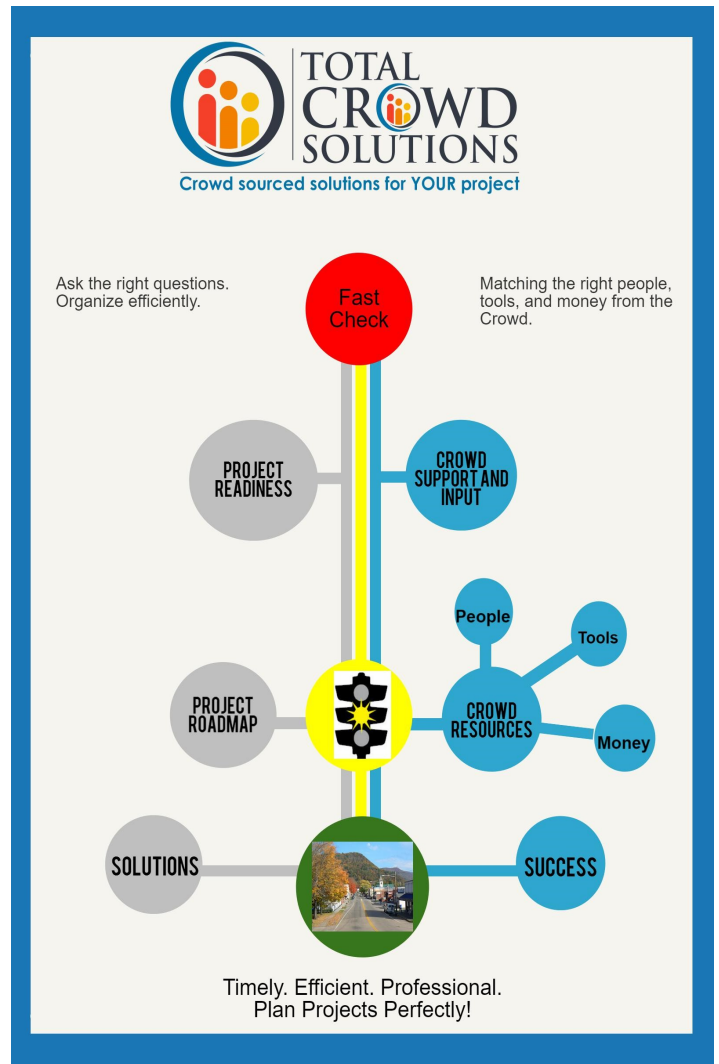

- Organize implementation team
- Set project goals, tasks and schedule
- Monitor and adjust
- Collaborate for support and feedback using social media and team productivity tools

Other Products & Services

- Project Readiness Fast Check
- Readiness Assessment, Support & Coaching
- Road Map e-Guide
- Coaching packages

TCS Team

Mark Hews and **Rick DeMark** each have 36 years of strategic planning, facilitation and/or project management experience for small towns, organizations and businesses. **Gordon Liu** is a technology solutions provider.

Total Crowd Solutions offers its products and services at prices that small towns, nonprofits and businesses can afford. Contact us for a quote.
